PREMIUM INFRASTRUCTURE & EXPERIENCE

THE PROBLEM WE SOLVE

BUSINESSES ARE LOSING CLIENTS DUE TO CRYPTO PAYMENT BARRIERS

Today, many international clients hold funds in crypto.

BUT BUSINESSES OFTEN FACE:

- Legal uncertainty
- Accounting concerns
- Banking risks
- Lack of compliant crypto infrastructure
- Unsafe P2P alternatives
- Delayed transactions

AS A RESULT:

- Deals become complicated
- Clients lose trust
- Businesses lose revenue opportunities

PARTNERSHIP MODEL #1

OFFLINE CRYPTO PAYMENT SETTLEMENT

Your client visits PLEX and pays in crypto.

PLEX HANDLES:

- Crypto verification
- AML/KYC checks
- Crypto fiat conversion
- Secure settlement support

Your business receives a comfortable and legally compliant payment process.

IDEAL FOR

- Real estate developers
- Car dealerships
- Premium service providers
- Foreign client transactions

EXAMPLE

A foreign customer wants to purchase property or a vehicle using USDT. Instead of using risky P2P methods, the client completes the transaction safely through PLEX - quickly, legally, and without payment

PARTNERSHIP MODEL #2

REMOTE CRYPTO PAYMENT PROCESSING

PLEX CAN REMOTELY ONBOARD:

- Your company
- Your customer

THE CLIENT SENDS CRYPTO ONLINE, WHILE PLEX HANDLES:

- Verification procedures
- Transaction confirmation
- Invoice issuance
- Legal settlement documentation
- Fiat processing support

RESULT

Your business gains a compliant crypto payment infrastructure without operational complexity.

COMPLIANCE & SECURITY

LICENSED & TRANSPARENT OPERATIONS

PLEX operates under a VASP license issued in Georgia and follows strict AML/KYC procedures.

COMPLIANCE INFRASTRUCTURE

- National Bank of Georgia compliant operations
- Sumsub verification system
- AMLBot wallet screening
- Proof of Funds procedures when required
- Transaction monitoring systems
- Cooperation with banking partners

THIS PROTECTS:

- Your business
- Your clients
- Your accounting processes
- Your banking relationships

WHY THIS MATTERS

Using globally recognized compliance tools significantly reduces risks connected to unclear crypto origins or suspicious transactions.
